Summary

Software Developer with over 5 years of hands-on experience in Front-end and Fullstack, specializing in building scalable applications with **React, Next.js, TypeScript, and Node.js**. Strong expertise in **reusable Design Systems architecture** (Tailwind CSS, Radix UI, Storybook), state management (Zustand, Redux), and RESTful API integration with relational databases (PostgreSQL). Consistent background developing mission-critical solutions for **HealthTech, Public Health, and E-commerce** sectors, combining technical robustness and focus on usability.

Professional Experience

Senior Front-end/Mobile Developer - Livelio (Remote)

11/2025 - Present

- Maintenance and evolution of the **Design System**, ensuring visual and technical consistency across **Micro Front-ends**.
- Development of high-complexity components using **React, React Native, Next.js, Emotion, and Expo**, focused on **cross-platform** reusability (Web and Mobile).
- Implementation of governance by restructuring consumption libraries, documentation, and adoption analysis.
- Ensuring code quality and stability through **E2E (Cypress)** and **Unit (Jest)** testing pipelines.

Mid-level Front-end Developer - Epimed Solutions (Remote)

04/2023 - 11/2025

- Architecture and development for the HealthTech sector using **Next.js and TypeScript**, focusing on performance and security.
- Building a **Design System** using **Storybook, RadixUI, and Tailwind CSS**, reducing time-to-market for new features.
- Integration of complex systems with **JWT/SSO** authentication and consuming APIs documented via **Swagger**, using **React Query** for asynchronous state management.

Mid-level Fullstack Developer - Epidemiological Intelligence Center (Remote)

05/2022 - 07/2024

- Development of data engineering solutions for public health, building services in **Node.js** that automate SUS API consumption and population of **PostgreSQL** databases.
- Creation of dynamic dashboards for epidemiological data visualization using **ReactJS and ApexCharts**.
- Process automation and web scraping using **Puppeteer**.

Mid-level Front-end Developer - HEAP Software Engineering (Remote)

04/2022 - 04/2023

- Development and maintenance of large-scale e-commerces, optimizing flows such as **Cart and Checkout**.
- Architecture of Fullstack solutions using **Next.js and NestJS** with **Prisma ORM** for enterprise projects.
- Complex state management using **Redux Toolkit and Zustand**.

Junior Front-end Developer - RioSaúde - Public Health Company of RJ

10/2021 - 03/2022

- Development of modern user interfaces for public health management systems using **ReactJS and JavaScript (ES6+)**.
- Maintenance and evolution of recruitment systems, integrating React front-ends with **PHP** back-ends.
- Implementation of responsive and standardized interfaces using **Ant Design, Styled-components, and Bootstrap**.
- Collaboration in an agile environment with version control via **GitHub**, delivering critical modules for applicant screening.

Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3/SASS.
- **Front-end Frameworks:** React, Next (App Router), React Native, Expo.
- **Styling:** Material UI, Bootstrap, Tailwind CSS, Emotion, Styled Components, Radix UI, Shadcn/UI.
- **State Management & Data Fetching:** Zustand, Redux Toolkit, React Query (TanStack Query).
- **Testing (automated testing, e2e testing, unit testing):** Jest, Cypress, React Testing Library.
- **Tools & DevOps:** Git/GitHub/BitBucket, Vite, CI/CD, Storybook, Figma, Docker.
- **Back-end & Databases:** Node.js, Express, NestJS, PostgreSQL, Prisma ORM.
- **Languages:** English - Intermediate, Portuguese - Native

Education

- **B.S. in Information Systems:** Universidade Veiga de Almeida - 02/2022 - 12/2026
- **JavaScript - Udemy** - 2020
- **React JS / NextJS - Udemy** - 2021
- **Information Systems (incomplete):** Centro Universitário da Cidade - UniverCidade - 2008-2010
